LAGENDA Properties Berhad

Below expectations, but sales remain robust

Summary

- **9MFY23 core net profit RM111.3m came below our expectations, making up to 61.8% of core net profit at RM180.1m, owing to slower construction progress.**
- **Expect pickup in coming quarters ahead, as the group has successfully transitioned to Industrialised Building Systems (IBS) for certain projects.**
- **Re-iterate BUY recommendation on LAGENDA, but at lower target price of RM1.43, based on 20% discount to RNAV.**

Results Review

- **Results review.** 3QFY23 core net profit added 8.5% yoy to RM38.8m, lifted by higher contribution from the property development segment as a result of improved sales conversion. Revenue for the quarter gained 20.6% yoy to RM217.9m.
- **Results below expectations.** 9MFY23 core net profit RM111.3m came below our expectations, making up to 61.8% of core net profit at RM180.1m as well as 65.5% of consensus forecasted net profit of RM170.0m. While further improvements are on the cards, given that sales remain robust, we reckon that full year forecasted numbers will not be within reach, premised to slower construction progress in 1HFY23.
- **Operations Highlights.** In 3QFY23, LAGENDA's new sales stood at RM289.0m, bringing 9MFY23 new sales to RM796.0m (+44.0% yoy) and exceeded FY22 at RM788.0m. Unbilled sales stood at RM855.1m (up from RM811.2m in 2QFY23) implies 1.0x of sales to trailing-12-months revenue will sustain revenue visibility over the next 12 months.
- **Industry Highlights.** We expect demand for housing, particularly units targeted for B40 group to remain robust, on the back of the stability in employment data. The target to build 500,000 affordable homes by end of 12th Malaysia Plan (vs. 108,373 units have completed at end-2022) highlights the government strong commitment to tackle the housing affordability issue in Malaysia, aimed particularly towards B40 and certain M40 income group.
- **Outlook.** Going forward, the group's landbank of approximately 4,700ac that carries an estimated gross development value (GDV) of RM12.0bn will sustain long-term revenue visibility. We also gather that the group has successfully transitioned to Industrialised Building Systems (IBS) for their projects located at Teluk Intan and Kedah, which will ramp up construction progress, moving forward.
- **Valuation.** Trimmed our earnings forecast by 24.5% and 12.3% for FY23F and FY24F respectively on the account of slower-than-expected progress billings. Re-iterate our **BUY** recommendation on LAGENDA with a lower target price of RM1.43 (from RM1.52) based discount rate of 20% to our RNAV.
- **Risk.** Inability to replenish landbank, unexpected further rise in construction costs and changes in housing as well as property regulations.
