Technical Commentary:

Price is still on the uptrend formation in recent months despite bouts of volatility. Following the recent pullback and briefly slide below EMA20, price found stability and recovered above EMA9 in recent days. For now, traders may monitor for a potential breakout above RM2.40 to target next resistances located at **RM2.45-RM2.50**. Downside wise, support is envisaged at **RM2.33**.

Technical Commentary:

Price is on the uptrend formation after staging a swift recovery in August. After two months of consolidation, price has gradually stepped higher to close above all the moving averages and formed a flag-formation breakout above RM0.645. For now, traders may anticipate an extension of recovery to target the next resistances located at **RM0.705-RM0.770**. Downside wise, support is pegged at **RM0.635**.
