Technical Commentary:

After peaking in early 2025, price staged a pullback. An uptrend formation was re-established as price formed a V-shaped recovery in April 2025. Coming closer, price has formed a breakout-pullback continuation pattern and traders may anticipate for a pullback above RM0.840 to target the next resistances located at **RM0.905–RM0.950**. Downside wise, support envisaged at **RM0.805**.

Technical Commentary:

The stock has entered a correction phase since peaking in early 2025. After hitting the recent low, share price has formed a double bottom formation before recovering above all the major moving averages. More recently, it is staging a clean breakout above the RM2.71 resistance, which could open the path toward the next resistance levels at **RM3.08–RM3.22**. On the downside, immediate support is located at **RM2.62**.
