Technical Commentary:

After peaking in mid-December 2024, share price formed a correction. After forming a double bottom, the stock stabilised and uptrend formation is gradually re-established. Coming closer, share price have consolidated and traders may monitor for a potential breakout above RM0.480 to extend its recovery to the **RM0.510-RM0.535**. Downside wise, support is envisaged at **RM0.450**.

Technical Commentary:

Following a multi-month long of correction, share price appears to have bottomed out and formed a V-shaped rebound. Share price appears to have found stability after staging a recovery and close above all major moving averages in recent weeks. At this juncture, traders may monitor for a potential breakout above RM3.85, which could pave the way for an upside move toward the next resistance levels at **RM4.03-RM4.31**. On the downside, immediate support is pegged at **RM3.56**.
