## Technical Commentary:

Price has recently staged a rally, largely supported above the EMA 9 after breaking out of a consolidation pattern. Strong momentum has driven the stock to fresh 52-week highs, with price now retesting the **RM1.94** resistance zone. A decisive breakout above would confirm trend continuation, paving the way for an advance toward the **RM2.03-RM2.12** level. Immediate support is observed at **RM1.87**.

## Technical Commentary:

Price has turned into a consolidation pattern in recent months after taking a breather from the previous rally. Price has recovered above EMA 9 and the uptrend formation was re-established. Traders may monitor for potential triangle formation breakout above RM1.39 to target the next resistances located at **RM1.44-RM1.49**. Downside wise, support is envisaged at **RM1.32**.
