Technical Commentary:

The stock has broken above its long-term downtrend line and is currently retracing towards the breakout zone following the recent rally. A successful rebound from the trendline support would reinforce the positive price structure and indicate that buying momentum remains intact.

We expect further upside towards **RM0.840** and **RM0.910**, while the stop-loss is set at **RM0.720**.

Technical Commentary:

The stock has broken above its long-term downtrend line, signalling improving price strength after an extended consolidation phase. The positive technical setup is supported by strengthening momentum indicators, with the MACD maintaining a bullish crossover while the RSI continues to trend higher.

We expect further upside towards **RM0.405** and **RM0.440**, while the stop-loss is set at **RM0.33**.
