Technical Commentary:
With the stock continuing to trade above its key moving averages, it appears poised to break out of a three-month triangle consolidation pattern, signalling that the uptrend established since mid-2025 remains intact. The MACD is holding above the zero line while the RSI is hovering above 60, indicating sustained momentum that may support further upside.

We expect further upside towards **RM2.05** and **RM2.18**, while the stop-loss is set at **RM1.77**.

Johor Plantations Group Bhd (5323)
