## Technical Commentary:

**INARI** remains well-supported above its resistance-turned support line. The stock is trading above its key moving averages, MACD is turning higher towards a bullish crossover and the RSI at 56.3 still has room to run before reaching overbought levels. A decisive close above the RM2.52 resistance could pave the way for a continuation towards its prior highs.

We expect further upside towards **RM2.64** and **RM2.80**, while the stop-loss is set at **RM2.28.**

## Technical Commentary:
