Technical Commentary:

D&O has broken out above the near-term descending trendline resistance that has capped price since March. The stock is trading above its short-term moving averages. The MACD has turned positive and the RSI at 71.0 reflects strong bullish momentum, albeit stretched into overbought territory following today's sharp rally.

We expect further upside towards **RM0.55** and **RM0.57**, while the stop-loss is set at **RM0.47.**
